

## LETTER OF RECOMMENDATION

It is our utmost pleasure to recommend the service of **KRS SISTEMI d.o.o.** to you. Since more than 10 years **Planica Nordic** Centre successfully use snow makers Krpan to make snow for ski jumping hills in Planica. Krpan snow maker is ancestor model of **SHERPA**-current snow maker model of company KRS Sistemi. All this years their products performed exceptionally.

With help of this snow makers we successfully produce snow for all ski jumping hills in all weather conditions and we are always excellent prepared for the world cup ski jumping finals. Snow making capacity, snow quality, and efficiency are outstanding all the time. Light weight of Krpan snow makers is one of the biggest advantages for snow making in Planica.

All the time we use this snow makers with out of any problems and we recommend KRS service, as they are professional, reliable and precise company.

Primož Finžgar  
Secretary General OC Planica
